**ENVENTURE EXPANDS SALES STAFF TO SUPPORT REGIONAL DEMAND  
COMPANY ADDS NEW PRESENCE IN DALLAS/FT. WORTH METRO**

**HOUSTON, April 1, 2009** — Enventure Global Technology, the world's leading provider of SET® solid expandable technology, today announced the appointment of two senior technical sales representatives, Adam Johnston and David Mayhall, to the company's technical consultancy team. Johnston will serve a variety of clients from the company's headquarters in Houston, while Mayhall will provide a broadened presence from the company's first office in the Dallas/Ft. Worth area.

"Even in this down economy, we will continue to ensure our technology reaches the markets where it will bring the most value for the production of energy resources," said North American Vice President Chan Daigle. "These additions to the team and our new presence in the Dallas area will assist us with strategically placing Enventure's SET technology in North America."

Mayhall joins Enventure after working globally with such companies as Baker Hughes, Schlumberger and Smith International. His expertise lies primarily in drilling, evaluation and well construction technology. An industry veteran of 26 years, Mayhall has served in various field engineering, operations, sales, business development and global account positions. He received a Bachelor of Science degree in geology from the University of Tulsa and is also a member of the Society of Petroleum Engineers (SPE), American Association of Drilling Engineers (AADE) and Society of Petrophysicists & Well Log Analysts (SPWLA).

Johnston has worked in the energy industry for more than 33 years gaining worldwide experience with companies like Baker Hughes, Brown Oil Tools, TIW and Guiberson Oil Tools before starting his own consultancy firm. With an expert focus in drilling and completions technology, he has held a variety of management roles within engineering, operations, sales, business development and strategic account management. He is also a member of the SPE, AADE and the American Petroleum Institute.
